Current Research: Physics-based animation, elastic deformation, numerical optimization

EDUCATION

Doctor of Philosophy, Computer Science
University of Minnesota Twin Cities

Expected May 2020
Advisor: Rahul Narain

Master of Science, Computer Science
University of Minnesota Duluth

November 2014
Advisor: Pete Willemsen

Bachelor of Science, Computer Science
University of Minnesota Duluth

December 2011

RESEARCH EXPERIENCE

- **Creative Intelligence Lab Intern**
  Adobe

  Summer 2018
  Seattle, Washington, USA

  - ◇ Research techniques for collision detection and resolution for non-linear elastic deformation

- **R&D Software Engineering Intern**
  Digital Domain 3.0

  Summer 2017
  Vancouver, British Columbia, CA

  - ◇ Research and develop methods for the simulation of physically-realistic muscle and skin dynamics using parallel optimization techniques

- **Research Computer Scientist**
  University of Utah, Dept. of Mechanical Engineering

  Fall 2015
  Salt Lake City, Utah, USA

  - ◇ Research and develop simulation models to better understand the impact of urbanization on the built environment, enabling the development more environment-friendly city infrastructure

ORAL PRESENTATIONS

- GPU accelerated surface energy balance computations for urban environment simulation. AMS 2015, Symposium on High Performance Computing for Weather, Water, and Climate. Phoenix, AZ, January 2015.

- QUIC EnvSim: Radiative heat transfer in vegetative and urban environments with nvidia optix. GPU Technology Conference 2014. San Jose, CA, March 2014.

- Simulating radiative transport for vegetation in complex urban environments with green infrastructure. AMS 2014, Symposium on the Urban Environment. Atlanta, GA, February 2014. **Awarded Best Student Presentation**

- A highly scalable modeling framework based on gpu technology for simulating radiative transport in complex urban and plant canopies. ESA 2013, Sustainability: Urban Systems. Minneapolis, MN, August 2013.

- Modeling Vegetative Heat Transfer in Urban Environments with OptiX. GPU Technology Conference 2013. San Jose, CA, March 2013.

COMPUTER SKILLS

Preferred Languages: C++, C, Perl
APIs: OpenGL, GLFW, Eigen, OpenMP, CUDA
Applications & Tools: Unix/Linux, CMake, Git, SVN, LaTeX, MATLAB/Octave

RELEVANT COURSES

Physics Based Animation	Advanced Systems Programming	Compilers
Advanced Computer Graphics	Advanced Computational Logic	Numerical Analysis
Advanced Linear Algebra	Matrix Theory and Computation	Operating Systems

EXTRACURRICULAR ACTIVITIES

- SIGGRAPH Student Volunteer, 2017
- Subreviewer for ACM Symposium on Virtual Reality Software and Technology (VRST), 2015
- Selected to represent the Computer Science Department in UMD SCSE Dean interviews, 2014
- Academic Outreach:
  - ◇ Bulldog Science and Engineering Days, November 2013
  - ◇ Impact of Green Infrastructure on Urban Microclimate, June 2013
  - ◇ Engaging Elementary Students with Computer Science, May 2013
  - ◇ Impact of Urban Form through Experiments and Visualization, June 2012
- Member of the UMD ACM Club, 2009-2011
- Attained the rank of Eagle Scout, 2006
